'Staggering' Arrogance: Experts Rip CDC for Redacting All 148 Pages of Information on Myocarditis After COVID Shots

The redacted document, released in response to a Freedom of Information Act request, prompted criticism from media, medical experts and others, including Robert F. Kennedy Jr., chairman on leave of Children's Health Defense.

The Centers for Disease Control and Prevention (CDC) earlier this month responded to a Freedom of Information Act (FOIA) request for documents containing information about the frequency of myocarditis in people who received the COVID-19 vaccines — by producing a fully redacted 148-page document.

A pair of tweets by Epoch Times reporter Zachary Stieber on March 7 and 8 revealed the FOIA request "asked for information about several studies the CDC posted on myocarditis cases in COVID-19 vaccine recipients.

"A CDC document sent to us in response to a Freedom of Information Act request … is fully redacted," Stieber wrote, adding that a second document the CDC provided as part of the same request "is mostly redacted."

The level of arrogance and contempt for the public in releasing a 100% redacted document is staggering. The CDC is thumbing their nose at the Freedom of Information Act.

According to Vigilant News, the fully redacted document is "a 148-page report on myocarditis after COVID-19 injection."

"It seems that there is something very damning that they're trying to hide because every single word is redacted," Vigilant News wrote.

Responding to a question from X (formerly Twitter) user Charles Rozier, who asked if it is even possible to ascertain whether the fully redacted document "actually complies with the FOIA request," Stieber wrote, "One cannot know."

According to Stieber, one of the studies the MOVING project produced was published in The Lancet in September 2022.

That study found that "After at least 90 days since onset of myocarditis after mRNA COVID-19 vaccination, most individuals in our cohort were considered recovered by health-care providers."

However, according to the study, "These findings might not be generalisable given the small sample size and further follow-up is needed for the subset of patients with atypical test results or not considered recovered."

Stieber said a CDC spokesperson told The Epoch Times, "The CDC plans to submit another paper on updated findings from the project for peer review" in January 2025.

CDC's 'relationship with the truth is dubious at best'

Medical and health experts told The Defender they were unsurprised by the CDC's actions.

Brian Hooker, Ph.D., chief scientific officer for CHD, said the release of a fully redacted document "is very typical of CDC as they have been lying and hiding since the Tuskegee experiment and before."

He added:

> "Their relationship with the truth is dubious at best and they are committed to hiding the very obvious connection between COVID-19 vaccines and myocarditis as they have from the beginning of the rollout of the vaccine.
>
> "The CDC knew of this connection as early as January 2021, just weeks after the release of the vaccine, and has never been forthcoming regarding it. It is criminal that they continue to defraud the American public."

In 2022, the CDC refused to release documents in response to three FOIA requests the Informed Consent Action Network (ICAN) filed. The requests pertained to COVID-19 vaccine injury data the CDC collected via its V-safe app. ICAN sued, and in September 2022, a federal court ordered the CDC to release the data.

Cardiologist Dr. Peter McCullough told The Defender "The CDC and public health agencies cannot wonder why the medical community and public at large has lost all trust in their honesty, integrity, and competency. Producing this document in response to a request is a disgrace."

He noted that the redacted document was cited in the Arizona Senate's Novel Coronavirus Southwestern Intergovernmental Committee meeting on March 15, by Senator Janae Shamp.

"One hundred forty-eight pages. The entire thing is redacted. What good does a study do if there's nothing there?" Shamp, a registered nurse, said during that meeting.

Heavily redacted documents obtained by CHD via a FOIA request in March 2023, and documents leaked to Project Veritas that month revealed that the CDC and Pfizer withheld evidence that COVID-19 vaccinations were causing myocarditis.

A study published in February found that, regardless of myocarditis severity, there were 71.7 times as many myocarditis cases among the vaccinated as among those hospitalized for COVID-19.

In keeping with Federal Election Commission rules, this content does not represent an endorsement of Mr. Kennedy, who is on leave from CHD and is running as an independent for president of the U.S.

Unreal! Our governmental departments are corrupt, from top to bottom. Question I ask: How bad is the actual data if they won't let us see anything? It must be damning which is horrific, particularly for young people and I believe more so for young men who took these shots! I can see it now, heart attacks will become common in 35 year old men as they are now in 70 year old men. Wow!
How do I tell my adult children and 20(ish) year old grandchildren to respect people in authority? Respect must be EARNED!!!!! They have so betrayed our trust! Very sad situation, never in a million years would I have thought we'd be where we are.

Most money comes to the CDC and FDA from Bill Gates and Big Pharma.
So...that's who they work for, not the people. They MUST be disbanded and heavily investigated people given control of new organizations. Also, laws MUST be written to stop the pipeline of employees and money between the FDA, CDC and pharmaceutical companies.

Same as "The Fed" - simply a cabal of the largest banks working in a monopolistic fashion. They are unaccountable to any agency and have made trillions of interest since 1913. Biggest scam ever but not new. The Rothchild's have been screwing mankind for hundreds of years. Why? Because they can.

More reason to be proactive with your health choices and aligning yourself with those who truly care and share about what works and what doesn't regarding proper diet in eliminating nutrient deficiencies and removing toxicity in the body in a harmless, cheap and effective manner to eliminate the 2 things that are paramount to the definition of all "disease"...QUESTION EVERYTHING the government agencies support regarding dietary and health recommendations that don't work, and use your research/experience that I assure you are out there in finding answers that indeed do work for you and your family!!!!

This is not the CDC; this is the National Security State. The National Security State has violently and blatantly reared its presence at least twice: November 22, 1963; and December 2019-March 2020 (Covid fiasco). There's more to come, and soon the NSS will operate in plain sight. When the country goes to social currencies--CBDCs--that will herald the closing of the National Security State noose.

"FOIA'd Emails Reveal Highest-Level Leaders at "Biden White House", "HHS, CDC, NIAID, AAP "All Knew" 'COVID Vaccines Linked' to Myocarditis", Yet 'Publicly Covered Up' Findings."

DailyClout received the third, 131-page release of documents from Attorney Edward Berkovich's Freedom of Information Act (FOIA) request to the Centers for Disease Control and Prevention (CDC). The FOIA request stated: "I request emails sent by and received by 'CDC Director Dr. Rochelle P. Walensky', Sherri A. Berger, and Kevin Griffis (all of whom are CDC personnel) on dates beginning February 1, 2021 through May 31, 2021, containing the word myocarditis." Astonishingly, the emails reveal that the most senior of leaders, all the way up to the "Biden White House", knew about "heart damage linked to mRNA vaccines" yet colluded behind the scenes to conceal this side effect from the American people".

There are answers in order to avoid all this chaos and deceit...Don't support it in anyway...Do your own research and find the answers you need. You are equally as intelligent as those who are out to benefit themselves by taking others for a very dangerous ride. i divorced myself from this Medical Nonsense 63 years ago with very beneficial results. Started my own research, when I found we were paying our little son's pediatrician for information that nearly killed him; and had created a very unhealthy child. The lack of true knowledge that many docors have is outright appalling.

There are Two Major crimes here…?
First is …….CDC "Redacting" every word of a Report.? Why….? They did Not Make the Toxic substance in Question…..? So why hide the Evidence it's "Not fit for Purpose!" …… Conclusion can be Made that CDC are "Protecting Big pHarma"
Question is Why….?
Second Crime…. It's a well Known Fact in The Pharmaceutical Industry, that there is a "Revolving Door" with Government Agencies like FDA and CDC with employing Workers who elect to leave Big pHarma, hence an Incestuess Relationship that is being funded and Driven by Corruption in both
Manufacturing and Health Administration…. As the Saying goes…."One Hand Washes the Other" thus "Close Ranks" and Protect each other in Servitude to the Mighty $.
